* To be considered for admission into a formal Teacher Education Program in Illinois, the transfer student:

- Must pass the Illinois Basic Skills Test (IBST). It is recommended that the student take the IBST during the first semester of college and before completing 30 semester credits in a teacher education track. If a student experiences difficulty passing one or more sections of the IBST, it is recommended that the student enroll in EDU 999 Preparing for IBST.
- Must earn a grade of “C” or above in all courses for an endorsement and in all courses used as a part of a program (may include general education, professional education and major content courses).
- May be required to have a minimum overall grade point average to enter a high demand formal teacher certification degree program option. For example: To be considered for entry into a teacher education program, a student should have a minimum overall grade point average of at least 2.5 (4.0 = A). The minimum grade point average for consideration at SIU-C is 2.75.

Students should consider completing BUS 235 Business Correspondence and EDC 202 Human Growth, Development and Learning before transferring to a 4-year institution.

For additional information, select this link to the [Tips for Education Majors](#), or view the document in the online College Catalog under the Degrees and Certificates link.

¹ The content within CPS 111 is important to teacher education degree programs and is an additional recommended course. Some four-year institutions offer an equivalent course or have elected to integrate the topics covered in CPS 111 over a number of courses within the professional education sequence; and therefore, an equivalent course is not available. CPS 111 at these institutions most likely will be accepted as general transfer or elective credit.

This curriculum guide outlines a recommended or suggested first two years for individuals interested in pursuing a baccalaureate degree in this discipline or possibly one closely related. The General Education component in this recommended guide meets the guidelines established by the Illinois Articulation Initiative General Education Core Curriculum (IAI GECC). With appropriate justification and in consultation with your academic advisor, a request to substitute a course for one recommended in this guide may be granted with the appropriate approvals from the Department Chair, Dean for Instruction and Vice-President for Instruction. However, no substitutions are allowed in Groups I-V (General Education Component; GECC-IAI) of the curriculum guide (see the Associate in Science general degree requirements worksheet in the John A. Logan College Catalog).

It is recommended that you consult the catalog of the college or university you are considering as a transfer institution to complete a baccalaureate degree. It is also recommended that you consult with an academic advisor at that college or university.
