* Students may also need a “C” or higher grade in all courses specifically required for the Elementary Education degree at the transfer institution.

Prior to admission to a college or university teacher education program, transfer students will need to pass the Illinois Basic Skills Test. Students should consult with an advisor regarding the appropriate timing for taking the Basic Skills Test and any additional requirements specific to their transfer institution of choice. Most institutions have a required grade point average of at least 2.5 (4.0 scale) for admission into a Professional Teacher Education Program. Southern Illinois University Carbondale, for example, requires a GPA of 2.75 (A=4.0) for entry into the Teacher Education Program.

¹ The content within CPS 111 is important to teacher education degree programs. Some four-year institutions offer an equivalent course; in this case, CPS 111 is an additional recommended course. Other institutions have elected to integrate the topics covered in CPS 111 over a number of courses within the Professional Education Sequence and an equivalent course is not available. CPS 111 at these institutions most likely will be accepted as general transfer or elective credit.

² Requires a grade of “C” or higher.

This curriculum guide outlines a recommended or suggested first two years for individuals interested in pursuing a baccalaureate degree in this discipline or possibly one closely related. The General Education component in this recommended guide meets the guidelines established by the Illinois Articulation Initiative General Education Core Curriculum (IAI GECC). With appropriate justification and in consultation with your academic advisor, a request to substitute a course for one recommended in this guide may be granted with the appropriate approvals from the Department Chair, Dean for Instruction and Vice-President for Instruction. However, no substitutions are allowed in Groups I-V (General Education Component; GECC-IAI) of the curriculum guide (see the Associate in Science general degree requirements worksheet in the John A. Logan College Catalog).

It is recommended that you consult the catalog of the college or university you are considering as a transfer institution to complete a baccalaureate degree. It is also recommended that you consult with an academic advisor at that college or university.
