

EMERGENCY MEDICAL SERVICES

Emergency medical service crews respond to dispatched emergencies and provide medical services to ill and injured individuals in situations ranging from automobile accidents, fires, and psychiatric crises to hazardous material spills and emergency childbirth. Opportunities for employment exist at hospitals, ambulance services, fire departments, colleges, and within various governmental programs.

Emergency Medical Services (EMS) courses are structured to train students as paramedics by providing a continuum of training after becoming licensed as an Emergency Medical Technician-Basic (EMT-B). John A. Logan College offers the EMT course to provide students with enough contact hours and training to be eligible to apply for the Illinois EMT-B licensing exam as well as the National Registry EMT-B certification exam.

Emergency Medical Services* DEGREE PROGRAMS

FIRST YEAR – FALL SEMESTER

EMS 250	Paramedic I	10
ENG 101	English Composition ¹ OR ENG 113 Professional & Technical Writing ¹	3
MGT 240	Office Management OR	<u>3</u>

* Students must complete EMT 111 prior to EMS program.
Current Illinois EMT-B or EMT-I certification is required.

¹ Requires a grade of "C" or higher.

² Recommended for transfer students.

Students planning to transfer and pursue a baccalaureate degree should, when given a choice, enroll in the general education course that is IAI GECC approved and articulated with participating Illinois institutions.

*John A. Logan College reserves the right to modify
this curriculum guide as needed.*
