Information Literacy Rubric
“Excellent” Skill Checklist

John A. Logan College defines information literacy as “the ability to locate, evaluate, retrieve, organize, create, and disseminate information.”

In order to promote student success, please consider whether your assignment allows students to demonstrate each of the following:

________ Clearly define the scope of the question
________ Communicate, organize, and synthesize information from sources.
________ Correctly cite and format all information (ex. paraphrase, direct quote, indirect quote, block quote, etc.). Use information in ways that are true to the original context.
________ Correctly cite and format works cited entries using a consistent citation style (APA, MLA, Chicago, etc.)

Questions can be directed to any of the following Assessment Academy Team Members.
