MKT 224 Advertising	<u>3</u> 15	___

FIRST YEAR – SUMMER SEMESTER

Dept. No.	Hrs.	Gr.
ATI 200 Applied Technologies Internship ²	<u>1-3</u> 3	___

¹ Requires a grade of "C" or higher.

² The ATI 200 Applied Technologies Internship is a variable 1-3 credit hour course. In order to fulfill the requirements for this degree the completion of 3 credit hours is required.

The Graphics Design AAS Degree (GRD 2004) is the parent program to:

- Graphics Design Certificate Program (GRD 0005)

The minimum general education component for the Associate in Applied Science degree requires satisfactory completion of at least 15 semester credits of coursework distributed over the disciplines of Communications, Mathematics, Arts and Humanities, Physical and Life Sciences, and Social and Behavioral Sciences. The curriculum guide for each Associate in Applied Science degree program will spell out the course requirements or options available for satisfying the general education component. With appropriate justification and in consultation with your academic advisor, a request to substitute a course for one recommended in this guide may be granted with the appropriate approvals from the Department Chair, Dean for Instruction and Vice-President for Instruction. However, no substitutions are allowed in Groups I-III (General Education Component; GECC) of the curriculum guide (see the Associate in Applied Science general degree requirements worksheet in the John A. Logan College Catalog).

Students planning to transfer and pursue a baccalaureate degree should, when given a choice, enroll in the general education course that is IAI GECC approved and articulated with participating Illinois institutions.

*John A. Logan College reserves the right to modify this curriculum guide as needed.
Please verify with your academic advisor the accuracy and time lines of this document.*

Effective Date: Spring 2017

Career Opportunities: The program will prepare graduates to enter the profession of Graphic Design in print shops, magazine companies, newspaper companies, television stations and other related industries. The needs for each company varies, but graphic designer's responsibilities may include the creation of graphics, photography, animation, page setup, layout, logo design, and web page design. The program is geared toward students desiring a career in graphics design, dislocated workers and incumbent workers desiring to upgrade their existing skills, as well as students with interest in artistic expression.

Beginning salaries are comparable to other technical careers with the possibility of advancement within a particular company. A job placement service is provided for all John A. Logan College graduates to help students find employment.
