**If the Cafeteria dining area was remodeled, describe the type of setting you would prefer (style, lighting, furniture, sound, colors, electric/USB plug-ins, etc.)**

A bigger area with more seating.

A couch (sic) and some coffee tables

a more convencioned setting with microwave(S), griddles and TV. (ALL SIC)

A piano and sound system. Lot more light

A Retro 70s look.

Abundant electrical & USB ports and task lighting would be nice because the Library doesn't allow food/drinks. I assume there is already WiFi.

another microwave, couches, utensils available

Better chairs and more plug-ins.

Better Chairs WITH Cushions. Electric/USB Plug-ins.

Better chairs. Larger tables.

Better dinning (sic) tables, sofas, soft classical music, dim lighting, warm colors, & USB plugins on every wall :)

Comfortable chairs, good well lit (sic) areas, multiple appliances, lik (sic) microwaves, vending machines, trashcans, multiple plug ins to make computer access across the whole cafeteria.

Couches and dimmer lighting.

Darker lighting; Homelike furniture.

Dim lights, more food choices

Disco Ball & A Lazy Boy I really think its (sic) fine.

doesn't matter

Don't go in the cafeteria

Don't use site dining.

electric, lighting | not bright, furniture | a lot, no sound, modern style

electric/USB Plugins would be good.

Enough Room in serving Area

Fine with anything. (SIC)

Flat screen tvs and atm machine.

Food Quality with lower pricing.

furniture

furniture, sound, electric/USB plug-ins [all circled]

I believe it is fine how it is. Maybe expand the cooking area.

I believe it's set up nicely.

**If the Cafeteria dining area was remodeled, describe the type of setting you would prefer (style, lighting, furniture, sound, colors, electric/USB plug-ins, etc.) continued**

I could sarcastically request 50s kitsch, a star trek theme, steampunk, rockabilly. Maybe line the place with paneling & dim lights & make it speakeasy theme, or cajun. Really, I don't have the slightest clue

I Do not use cafeteria

I dont (sic) use the area.

I don't eat here.

I don't eat in the cafeteria.

I don't really spend any time in the cafeteria, but it seems pretty functional the way it is.

Don't waste the money!

I don't see anything wrong with it.

I don't spend time here, I don't care

I feel the cafeteria is fine now.

I have never ate (sic) or sat in the cafeteria since I have been here

I have never eaten in the cafeteria so it's not important to me what the dining area is like.

I have not eaten in the cafeteria before.

I like how it is, maybe just more room

I like it the way it is.

I never use the cafeteria, so it wouldn't matter to me either way.

I normally don't use the cafeteria because it is crowded & very noisy / distracting. I would suggest more space.

I really do not care, it is fine right now.

I think it is fine the way it is.

I think its (sic) fine the way it is

I think it's fine as is.

I think it's fine the way it is

I think the colors and set up are fine. There should be more dining area outside.

I think the setup is fine as is. The price is a little pricey. That's the only thing I'd change.

I think the way it's set up is fine. I think you need more workers.

I think there should be more tables excessible (sic) to the plug in's (sic). I dont (sic) think it should be by the book store. I think there should be comfy chairs but everything else seems fine.

I usually do not eat in cafeteria as I go sit out in vehicle or go back to work.

I would like it a little bit lighter, other than that I wouldn't mind

I would like it to look like more of a comfortable dining/study/between time place with usb/plugin avaiability (sic)

I would like more outlets for computers/laptops

I would like to see a more lounge (sic) area in cafeteria.

I would like to see all of these things mentioned above implemented.

I would put more electrical plug-ins everywhere so people have a great chance of charging a computer or phone.

I would say to add more room for a type of "computer bar" and also TVs with shows on even if it is the news.

I wouldn't care as much as long as there were plenty of electrical outlets

I'd add more outlets so people could charge their laptops/devices while eating.

**If the Cafeteria dining area was remodeled, describe the type of setting you would prefer (style, lighting, furniture, sound, colors, electric/USB plug-ins, etc.) continued**

I'd definitely prefer a bright remodel with more accessible plug-ins. Comfortable seats and more seating would be nice.

If music, perhaps a local radio station, played for us in the cafeteria, that would be a good thing. Music creates a warm environment where students can meet and get to know each other.

It is fine the way it is.

it just needs to feel a little more comfortable. Less tile and more cushion. Different tables and chairs. Maybe more neutral color scheme with browns or so.

It needs more comfortable seating and more plug-ins to make charging things easier

It should be kept the way it is already

Its (sic) fine

It's fine how it is.

It's fine the way it is.

It's good as it is right now, but it needs more space because during lunch hour it is packed.

It's nice the way it is.

It's to (sic) expensive for the quality of food you get. I have very low income with three kids at home to feed. I can't afford to eat at the cafeteria. More lighting would be nice and move the exit away from traffic of people passing through.

Japanese style (on the floor)

Just something that feels a little more like home. more spacious.

Keep it simple, nothing too crazy. Provide lots of places to hangout and do work.

Laid back w/light colors More outlets and USB plugs

Very loud.

Very over priced for the quality of food. It is a recession you know?

Why have a chef if he doesn't actually cook anything? Student workers don't know how to properly cook.

Wish there were umbrellas on the tables outside the cafeteria.

With out textbooks is would help save students money.

we should read out our (sic) textbooks more if we were told to purchase them.

way too pricey! lower it down!

unless the teacher is really going to use the book asigned (sic) I don't think we as students need to buy the book.

TOO eXPeNSIVE!

Too expensive for much use.

To (sic) expensive. Could get by without them

They're expensive. But, that's not your fault.

They are WAY OVER PRICEd. especially since they don't get used, but every so often.

They are expensive and it'd be nice to not have to purchase 1 per class

There needs to be more textbooks

there is only one class out of 4 that the teacher actually uses the textbook and the textbook is used/helpful to me (SIC)

their own material

The textbook used are fair and quite effective.

The cost of outside resources (textbooks) must [underscore] be considered. Too EXPENSIVE!

Textbooks should create a rental system like SEMO's [double underscore] 21.75 per book

Textbooks seem to be a cash cow rather than something that actually helps students.

## **Other comments about course resources (textbooks, online resources, etc.) continued**

textbooks expensive!!!

Textbooks are too expensive, and selling the books back to the college is a joke. \$10 on a \$250 book is not a good return

Textbooks are too expensive!

textbooks are too expensive (I pay out of pocket for them)

textbooks are too expensive

textbooks are over priced, and most are outdated

textbooks are obscenely overpriced

Textbooks are integrated in education through the pull of corporations, and thus should be curbed

Textbooks are a waste of money, because we rarely use them.

Textbooks are a scam

Textbook cost way to much money!! (SIC)

Textbook cost is extremely to (sic) high.. The same text books online cost about 80% less per book!!!!

Textbook [sic] are too expencive [sic]

Tell us whether or not we actually need the textbook

Tell us ahead of time whether we actually will need the book or not

Some textbooks are pretty useless and a waste of money.

Some of my classes use Moodle which is nice because it's easy to learn how to use & it's easier to track my grade.

seem to rely on them too much

Please make a note to students if they actually need the textbook, or if the materials is available elsewhere, tired of buying books and never using them.

Online sources are unreliable.

online resources are definitely taking over thought I prefer the real thing in front of me.

most teachers have a good mix

Most people say it necessary to have the text book (sic) but then never open it a day in class. waste (sic) of money!

Math XL get confusing it said to get help learn and doing homework with it. Please don't complicate things other resources are added.

It would be helpful if every class had computers in them.

it helps to post notes & assignments online so they are always there for the student to use

If we aren't going to use them, we should not have to buy them.

IF [dbl underscore] online resources are used, the access code (if needed) should be provided FREE [underscore] of charge, not just in the purchase of a textbook.

I wish textbooks were paid for under my FAVAS scholarship. (SIC)

## **Other comments about course resources (textbooks, online resources, etc.) continued**

I think that the instructor would show how the textbook relates to the other resources. And give a clear understanding of it to the students

I returned a book to the book store in hopes to exchange. I wasn't allowed until I took a survey in my email. I never got the survey and have now had to go a semester without the book.

I never signed up for hybrid courses. I don't have internet connection at home.

I like when additional readings are in an e-reader format.

I like to learn in my own fashion. I just don't buy course books. They're just money machines for people. Look don't care about education! They're just scamming 20-somethings out of food money.

I hate how my math is online and not in a book!

I find online resources hard to keep up with.

I don't really care for Math XL. I find paper hw better (SIC)

I dislike the price of the textbooks and how little they are utilized.

Hybrid classes should be separated from regular classes. I have very limited Internet access.

Don't like that professors say to buy an expensive book but never use, or if an older edition works the same

Doing a good job.

doesn't matter if instructors use other than texts

cost to damd much (SIC)

cost to (sic) much!

Books are too expensive to only use once

books are a waste of money because textbooks are expensive, and barely used in class.

A line practice test.
