3. Could Volmail be improved?

Answer Options	Response Percent	Response Count
Yes	21.7%	75
No	78.3%	271
If Yes, please explain:		53
	<i>answered question</i>	346
	<i>skipped question</i>	24

If Yes, please explain:

How about we just use our primary emails instead? That seems way less complicated.

Sometimes I can't log on

to get direct text on cellphone when getting an email

Maybe a little more user-friendly, however; it is not difficult to figure out

It is very irritating to get emails about events and other things when they only thing I sign up for is college alerts.

Just improve it.

It's unnecessary to have, if my teachers email me then its by my regular email. Never use volmail. Ever. (sic)

sometimes get many multiples if same emails from college (sic)

Shorter username

Every school tries to give us new emails. We have our own, let us put them in our D2L profile and send us stuff on there.

Not sure

Why send only from D2L but send and re: from Volmail (sic)

I think it would be helpful if teachers emails were already in the contact list - or at least the current teachers. (sic)

If it could be linked with other email accounts

I don't use it, so I don't know

I feel teachers do not get on it enough

Improve the clutter removal

Unsure, but there's always room for improvement

Make it cleaner in the navigating program

Everything has room for improvement!

Stop filling my inbox full of useless messages.

Have it's own app

Email does not always send and receive

Don't use enough, it's not like regular email (sic)

Its confusing to me (sic)

Everything can be improved

Teachers emails class should not go to a different folder (sic)

My grades won't pop up
 Let the students choose to use other email.
 Switch to gmail, outlook sucks
 I'm not that great at technology, but my email account is just a lot easier to access.
 The set up on main outlook page could be organized better. For example, how Hotmail is set up on the main server
 It doesn't always work
 When I have my volmail set up it would be nice to be able to get a notification sent to my phone when I get an email so I don't miss an important email or something
 Stop sending important email to clutter. Email roundup weekly of events. Announcements to all current students.
 Better placement on website
 Why do I have two accounts?
 Create an overall app for your students or make it more compatible.
 It could be easier to navigate on
 I don't know, I have two email accounts already & don't need a third.
 Sometimes it is difficult to find what I'm looking for or there are redundant options
 Sometimes I won't get emails about cancelled classes or emails from professors
 The app I have on my phone, it does not work half the time
 drop the words "volmail" from the email address
 Max file attachment size could be much larger
 Not always easy to email your teacher back
 By not having it, I barely use it. I think student's should just be able to use their email that they already have.
 More user friendly from outside JALC to inside.
 Make it a personalized password
 Anything can always be improved
 Link to D2L
 Volmail messages notifying class cancellation should be sent to text
 I don't know, I don't use it.

Have a Christian club where we can meet once a month.
