Have a bigger teacher staff to allow more classes to be formed and not having to worry about classes filling up too fast

Having the tours, helping us sign up for class at our schools, talking to us one on one

Explain more about an associates degree and whether you need one to go on to a 4-year college

I wish I lifted more

More information for online services (D2L, Volmail), it is very confusing.

Everyone is helpful and nice, so finding classes and making new friends is easy

Coming from a family who has never been to college, it was hard knowing where to go and who to talk to about transferring and graduation information.

Listening, caring, actually engaging individually

Gave us a "plan" of the classes as well as credit hours that we need to accomplish before graduation. I also wish I knew more about dual credit when I was in high school (probably their fault not JALC)

Better help on what to do with financial aid and how to sign up and fill out paperwork for it

Given more accurate information quicker

Warmer rooms in G wing

Perfect

Letting us use our own email instead of volmail

Possible tours of college when visiting, more info for financial aid

Easier access to information, more efficient website

It was pretty simple

Give me all my FAFSA required information on one visit instead of giving 1 sheet per visit after waiting an hour or more every time. This happened 4 different times. I would rather get all of those in one visit.

More education on all programs available

Explained online portals (D2L, Volmail, MYJALC)

The tour of the campus before the semester started

I did it on my own so nothing more could have been done

It was a good transition

Supplied a packet about important deadlines and dates

It was a pretty easy transition

Less forms

Nothing

Nothing

Could have mentioned the activity fee. My semester is almost over and I haven't utilized it once.
