## Q3. Could VolMail be improved?

Answer Choices	Response Percent	Response Count
Yes	18.5%	68
No	81.5%	299
<i>Answered question</i>		<b>367</b>
<i>Skipped question</i>		<b>32</b>

## If yes, please explain

Shorter email address name

Easier access, integration with gmail

If one could make up own email address would be easier to remember

Sometimes important emails don't show up via notifications

It's just not as user friendly/advanced as gmail. If it was more accessible, I would use volmail more often.

Yes, to be what you need to know about information what's going on.

Easier to access through phone

Making it a lot more easy to log in

Need to have an easier access, issue with password

It needs to be more usable on mobile devices

It could be more cell phone friendly, I have an iphone and it's iffy

Easier emails

Probably

Better app compatibility

Remove single sign on between D2L and volmail

Remove single sign on between devices

Make it easier to access. Maybe make inbox messages visible on MYJALC homepage.

NO SINGLE SIGN IN

Easier to use

Make the app easier to use

It could be set up more like an email, easier to get on

Shorter than "@volmail.jalc.edu", its excessive

Class notifications and question and reply messages separated.

More connective with our devices

No single sign-on with D2L and myJALC

Link with primary email

Less glitches

Easier to log into

Not have split in boxes

Allow to get updates about grades without getting emails everyday

Send the username and password to the email we provide

It is hard to get into

I don't know, I don't use it

There could be a more clearly outlined way to link your volmail to your primary email

It would be nice if volmail had an app so I could get notifications on my phone when I get an email.

Easier to use

Stop asking me if I want to stay logged in.

I'd like my volmail notifications to show upon my D2L homepage

I think its fine

Everything needs improved

Don't make me log in on my phone all the time

I think its fine

Easier to access

Answer Choices	Response Percent	Response Count
Yes	4.5%	18
No	95.5%	379
<i>Answered question</i>		<b>397</b>
<i>Skipped question</i>		<b>2</b>

**If yes, please explain**

I can't have night classes because I have no transportation for them

I'm not sure where to find a bus schedule

I live out of district and paying for gas to get to class is hard for me because of my school schedule to cut my job hours

I have to share a car. Taking local transit sometimes makes me late.

I take the bus

I hate driving my truck here everyday for 15 minutes there and back

No car, busses come too far apart

The busses could stop closer to my apartment so I wouldn't have to walk 2 miles. Also the stops could be modified - why do we go to marion?

Only issue is distance and gas money problems

I have to walk 30 minutes just to get to the rides mass transit shuttle stop in Carbondale

It's very expensive having to drive from West Frankfort everyday. I tend to go through a tank of gas every week

Because I don't understand why would ride mass transit change the bus schedule that makes it a hassle for students

Sometimes due to how expensive gas is

I don't have a car and my parents don't like bringing me because class is late

No bus to extension center

I have to bike, and weather is an issue

It used to be, the bus did not stop in front of my house

I drive myself

Sometimes cars break down

Q21. What would have improved your tour?

*Answered question* 61

*Skipped question* 338

- They didn't explain too much of what kind of classes were where
- Show G wing
- We should have more time in each building and learn how the college connects
- I haven't been on a tour
- Make them mandatory
- Nothing
- Free water bottles to carry
- Experience
- More info
- See more, I was only shown where my class is.
- Yes, if I could
- Campus life, having more things to do on campus
- Since its a small college, make it faster
- Have the student ambassadors engage more with the students
- I wasn't shown the entire campus
- Nothing, I was shown everything I needed to know.
- More information about the school and its library
- Free Food
- Free Food
- Free Food
- I have given a tour to high school students with CCDC
- More expansive
- If the people didn't talk to each other the whole time and actually told us where things were
- I don't think we went everywhere in JA
- Nothing, it was great
- To go more in depth with everything the college has to offer along the level of classes
- It was perfect, student ambassadors rule!
- I would of liked a better way to remember where I was because half the time I had no idea where I was.
- Nothing, John A. was awesome
- I didn't have one but someone directed me to where my classes were when I came to look
- Make it more personal for students going into different subjects
- I thought it was good the way it was. Very beneficial.

Actually having one

Seen all buildings instead of just a couple

Only showed what parts of building that applied to me

They were not too specific on little things like computer labs, jobs, and the gym.

If I would have been able to see more of the college besides the "computer room"

If they would have taken us through the cosmetology lab.

Walked slower, explained the places better (but I understand it's hard to remember where everything is until you go to school here)

When I toured, you could only tour nursing or stuff like HVAC. Neither interested/applied to me.

One on one tour with schedules and classes (if scheduled)

Provide take home material with easier to read maps; it is hard to remember everything; maybe a "hot spot" location list of things like the library, computer labs, etc.

Friendlier tour guide

Have the students touring give more info and actually want to show incoming students JALC

Show more of the tech-side of the school

Nothing, I was just bored the entire time

Seeing where everything was at. I didn't go through the whole school.

Not sure (it was a baseball visit)

The tour was too fast and not explained very well

Less sitting

Better explanation of where things were. It was more like a quick run through than a tour

Never been on one

Never had a tour

My tour was pretty good

I would have had the guide dress up as the JALC mascot

Our tour guide had no idea what he was doing!! He just followed another tour guide around, and when he concluded his tour, ours was over too. Without seeing everything. Don't exclude small schools from getting quality tours.

Showing where computer labs were

Having my schedule first so I could look for my classes

Nothing

Nothing

No idea

Free lunch

More teachers using D2L the right way

The layout of campus

Lower tuition if possible, add more instructors

More free food

Clear the parking lots when applicable, if it's too icy to clear a lot then call off class

Bring in fast food restaurant (chick fil a)

Have teachers that teach online D2L actually know the program. Clear parking lots of snow.

The availability of classes for non traditional students, as well as the availability of the computer lab and testing for us. I work and it is hard to make the arrangements for test and quizzes

Better at looking at teachers and finding the ones that are not knowledgeable in the course

To be able to get a degree fully online, its very hard to work full time and have to come to campus

All courses should be available as online with exception of labs

Nothing

Toilet paper (we need that 2-ply)

Having other cheaper food options

Have more chairs in the areas to sit down

Food prices

Nothing

Free snacks

Cheaper apartments

More parking

That people who cannot afford food get some free food. I hear people complain about it a lot.

All systems be connected, everything takes ten steps to accomplish. It's not only hard on students but faculty as well.

The way the financial aid office and the bursars office don't communicate well, with us and each other.

Nothing

Ageism - yes it happens, instructors of specific programs all coordinate and teach updated courses

When you contact someone with a problem (president) they respond back

Financial aid adjustment

There isn't anything I would change about JALC

I would change how the scheduling process is done.

Bring back the HIT program

Parking space

Bring back the HIT program

No class should only be one night a week. That way if something was to come up and class be cancelled, you wouldn't be a week behind. All classes should meet at least 2x a week.

The childcare was offered for every student especially for night classes or in emergency situations

How often classes are offered

Bus service needs to run later, campus needs to be open later.

Charged \$60 a semester to use the CHEC building when not all students use it. I don't have time to go there yet I have to pay for it.
