OFFICERS REPORTS

A. Board Finance Committee (Appendix III)

Vice-President for Business Services and College Facilities Brad McCormick reported the Finance Committee had met prior to the Board meeting. The first item discussed was the report contained in Appendix III which is the first accountability report in conjunction with the Sustainable Financial Plan for Budget Cuts. He explained how the report was put together, noting that every item was assigned to a category. He explained that some of the categories were not yet able to be measured because the action item doesn’t start until the beginning of the next budget year. The report measures the completion of each item in the Sustainable Plan. Mr. McCormick noted that 5.29 percent of the total dollar goals (even including the Crisis Mode which has not yet been triggered) have been met. This progress will continue to be reported to the Board of Trustees on a quarterly basis.

Vice-President McCormick reported the Finance Committee also revisited the cash flow and the assumptions being made. He said the cash flow document will be available the following day on the College’s web site and will be updated monthly.

Mr. McCormick said the Finance Committee discussed the results of the bank bids which appear later on the agenda for action. He noted that Du Quoin State Bank had worked very hard to maintain the bid.

B. Campus Safety Committee

Vice-President McCormick reported the Campus Safety Committee had met on May 4. He said the primary agenda item was to discuss the replacement of the position of the coordinator of campus safety, noting the person currently in that position will be retiring June 30. Mr. McCormick said the committee is recommending that this position not be placed in the hiring chill, but be filled with some modifications to the position. The proposed new title would be director of emergency planning and risk management and would report directly to the vice-president.
C. **Board Building Committee**

Mr. McCormick reported the Board Building Committee met on May 12 and toured the Athletic Department renovations currently in progress. He noted the College’s own staff is doing a very nice job on the renovation project and invited Board members to come and tour. He said the tour also included the roofing project and Communication Building. Mr. McCormick noted that a great deal of steel is now in place on the Communication Building.

D. **Board Policy Committee**

Vice-President Brad McCormick stated the Board Policy Committee had not met recently, but two policies are on the agenda later for first reading. He briefly explained the proposed changes to the policies.

The group visited legislators and went to the Governor’s Office with signed petitions.

F. **Sustainable Plan Progress Report (Appendix IV)**

Copies of the Sustainable Plan Progress Report had been previously distributed to the Board. Vice-President Daugherty noted the report shows the activities in each of the initiatives in the plan. Many initiatives have been completed, many are in progress, and many will not be implemented until the FY 2011 budget. Dr. Daugherty said the report will be placed on the College’s web site. There was some discussion on the reduction of College supported hours for student workers, and it was noted that those student hours that have to do with safety and security have not been reduced.

Board Chair David Hancock commended Dr. Daugherty and the staff for the excellent job in putting together these reports.

G. **Fee Increases for Courses in Dental Hygiene, Diagnostic Cardiac Sonography, Dental Assisting, Business, and Life Science Department**

Vice-President for Instruction Julia Schroeder reported that fees are being raised in a number of programs – Dental Hygiene, Diagnostic Cardiac Sonography, Dental Assisting, Business, and Life Science Department. In addition, she noted that variable tuition is on the agenda later for Board approval. She reminded the Board again of the distinction between variable tuition and fees – variable tuition is what we need to charge students to maintain a program; fees are for more consumable products students may need in classes, i.e. software programs, lab materials, etc.

H. **Alternative Wind Energy Technology**

Vice-President Julia Schroeder introduced heating and air conditioning instructor Jason Stutes. Dr. Schroeder stated that through the Perkins Grant, the College was able to purchase a very nice piece of equipment which included a wind turbine and a solar panel. She noted that two new certificate programs are on the agenda --HVAC Green Technologies and Energy Management Systems -- which Mr. Stutes is in charge of. She also stated Mr. Stutes is a Green Academy member for Career Pathway with the ICCB.
Mr. Stutes gave the Board an overview of a grant called the Weatherization Program which will be released to our area and should create over 200 jobs. He reported on the recent accomplishments of his classes in working on Habitat for Humanity houses in the area. Mr. Stutes said the ICCB team is working on several grants for training in alternative energy. He said he is trying to purchase wind turbines with one of the grants. Mr. Stutes said his classes will be doing a job for Shawnee Alliance in October, putting in geo-thermal units. He also reported on several donations of equipment received, totaling approximately $200,000. He invited the Board to visit B-21 and view some of the equipment and his students’ work.

I. Presidents’ Council

President Bob Mees reported that Presidents’ Council had focused mainly on two things this year – maintaining the appropriated money earmarked for community colleges this year and on the appropriation for FY-2011. He reported that Jerry Weber of Lake County College will be president of Presidents’ Council next year. Gayle Saunders of Richland Community College will be vice-president, and Peg Lee of Oakton Community College will be secretary-treasurer. He noted that four presidents are retiring this year.

J. Destination Development

President Mees distributed a handout to the Board containing information on a proposed destination development in Marion. He said this would have a significant positive impact on the area, and area legislators are working hard to make it happen. He noted there is a great deal of support for the project, and said he and several others from the College will be traveling to Springfield later in the week to show support. He said if the destination does happen, it could generate up to $400,000 or $500,000 per year in tax money for JALC, and about $4 million for the Marion School District of which a portion would be shared with other districts within a 25-mile radius. Dr. Mees gave further details on the planned project, noting that it would attract a large number of people to southern Illinois and enhance our attractions that are already in place. Trustee John Sanders commented that he felt the John A. Logan College delegation’s efforts while they were in Springfield at Lobby Day had a positive effect on convincing legislators to support this project. Dr. Mees said it should be known by later in the week if the legislation for the project will be approved.

Jake Rendleman and Mike Hopkins moved and seconded that the Board of Trustees approve all items on the Consent Agenda, with the understanding that the premium amount in Item J – Treasurer’s Bond was corrected to $4,500.
A voice vote showed all in favor. Motion carried.

OLD BUSINESS

A. Award of Food Service Contract

Vice-President for Business Services and College Facilities Brad McCormick reported the food service RFP process is concluded with a committee recommendation to award a 10 year contract to Chartwells with 5 additional one year renewals if both parties mutually agree. Only two bids were received and the other company wanted to just operate the food service for the College, and did not want to take on the specified responsibilities. The management agreement consists of Chartwells providing $225,000 of capital improvements to be depreciated out over 15 years. In addition, Chartwells will advance the first year of commissions, which is presently estimated at $45,000. Vice-President McCormick recognized the committee who worked on this and introduced Gail Rawson who oversaw the process. Ms. Rawson gave a brief overview of the selection process and she and Mr. McCormick shared some details on what Chartwells is willing to do. They answered questions and some sample photographs of proposed additions/renovations were made available. Vice-President McCormick stated that College legal counsel has reviewed the management agreement once, and some additional documents are now being reviewed.

NEW BUSINESS

A. Proposed Additions/Revisions to Board Policies (Appendix VIII) (No Action)

- Board Policy 5141 – Retirement Benefits
- Board Policy 7420 – Travel on College Business

Trustee and Board Policy Committee member John Sanders and Vice-President McCormick briefly discussed some of the proposed changes in the two policies.

B. Proposal for Banking Services

Vice-President McCormick reported that requests for proposals for banking services were mailed to 23 financial institutions. Proposals were received from five (5) banks including Du Quoin State Bank, Regions Bank, U.S. Bank, Old National Bank, and Fifth Third Bank. Proposals received from Old National and Fifth Third Bank did not meet the bid specifications due to failure to tie the interest earnings rate to a specific index. Mr. McCormick said proposals received from Du Quoin State Bank,
Regions Bank, and U.S. Bank were evaluated to determine the proposal providing the highest interest earnings net of monthly service charges. As a result of this evaluation, Du Quoin State Bank’s proposal ranked the highest due to payment of an interest earnings rate on collected balances based with the Fed Funds Target rate plus .10% along with no assessment of monthly service charges. Vice-President McCormick said the interest earnings rate would be adjusted quarterly each year of the contract. Both Regions Bank and U.S. Bank proposed monthly service fees for banking services. Du Quoin State Bank has provided banking services to the College for the past six (6) years. Mr. McCormick said this working relationship with Du Quoin State Bank has displayed their experience and reliability in serving the College’s banking needs.

President Mees recommended and Jake Rendleman and Bill Kilquist moved and seconded that the Board of Trustees authorize the administration to accept the banking proposal submitted by Du Quoin State Bank for a five year period beginning June 1, 2010 through May 31, 2015.
