NOTES AND INFORMATION

*Or any higher math course.

*All core courses (CRJ) must be completed with a "C" or higher.

*Your transfer institution may have policy guidelines in place allowing community college students to transfer credits beyond the associate degree that apply toward fulfilling degree requirements. For example, some degree programs at SIUC will accept and apply up to 78 credits toward baccalaureate degree requirements. If you are planning to transfer to an Illinois IAI participating institution that accepts and applies credit beyond the AAS, consider selecting courses from the following that will fulfill the IAI Transferable General Education Core Curriculum (GECC). Communications: ENG 102; Mathematics: MAT 113; Humanities and Fine Arts: 3 credits of IAI Fine Arts electives and HIS 102; Social and Behavioral Sciences: SOC 133; Physical and Life Sciences: at least 7 credits are required with one course being a Life Science elective and one being a Physical Science Elective and one of the two must be a lab science course. Consult with a program advisor at your transfer institution to determine number of credits accepted and if your intended major requires any specific general education courses in the major you select.

¹ Requires a grade of "C" or higher.

² Spring only.

³ Although this class is recommended, it is not required for graduation from this program and therefore is ineligible for Title IV financial aid funding.

The minimum general education component for the Associate in Applied Science degree requires satisfactory completion of at least 15 semester credits of coursework distributed over the disciplines of Communications, Mathematics, Arts and Humanities, Physical and Life Sciences, and Social and Behavioral Sciences. The curriculum guide for each Associate in Applied Science degree program will spell out the course requirements or options available for satisfying the general education component. With appropriate justification and in consultation with your academic advisor, a request to substitute a course for one recommended in this guide may be granted with the appropriate approvals from the Department Chair, Dean for Instruction and Vice-President for Instruction. However, no substitutions are allowed in Groups I-III (General Education Component; GECC) of the curriculum guide (see the Associate in Applied Science general degree requirements worksheet in the John A. Logan College Catalog).

Students planning to transfer and pursue a baccalaureate degree should, when given a choice, enroll in the general education course that is IAI GECC approved and articulated with participating Illinois institutions.

Additional Information: The Criminal Justice A. A. S. degree program meets the objectives of students considering careers in policing, the courts, corrections, juvenile justice, and private security, as well as preparing students for transfer and maximizing articulation with baccalaureate programs in Administration of Justice, Criminal Justice, Police Science, etc.

Career Opportunities: Positions in law enforcement: Administrative Agencies (local, state, federal, natural resource); Courts (security, administration, probation); Corrections (local, state, federal, parole); Juvenile Justice (law enforcement, probation, corrections); Private Security (loss prevention, asset protection, investigations, human resources)
