OUTLOOK & VOLMAIL TIPS

- That switch that says Focused/Other will separate things that Outlook judges as spam or bulk mail, so you can view only your most important messages (Focused), or spam and other mass mailings (Other).
- Setting up Volmail in this way also pulls your Office365 Calendar, Contacts, and OneDrive, into Outlook.
- Use the buttons on the bottom to navigate between mail, and calendar. Use the search icon (magnifying glass) to view your files and contacts.
- You can add more cloud storage accounts such as Dropbox and Google Drive as well. Just press the gear icon in the bottom left hand corner of the menu and click on "Add Storage Account."
