

Mission Statement

“We are a diverse learning and teaching community committed to improving individual life and society through high-quality, accessible educational programs and engaged learning opportunities.”

John A. Logan College (JALC) is an active and proud member of the CAE community. Our first mission is our students and the community development supported by the school’s staff, faculty, administration, prominent members of our community, and of course our students. We attend CAE events, virtual job fairs, training, and conferences. Our school favors conference experience for our students and have attended 3Cs and WiCyS every year and NICE occasionally. John A. Logan College has a CCDC team and computer club, that has competed in CCDC, NCL’s, and at Argonne National Laboratories maintaining an average membership of around 20 to 25 students. We have also as of last year became a WiCyS Women’s Chapter and are presenting a poster project with a team of eight at the event in March 2019. Those students elect to put in extra work, do tutorials, labs, training, and volunteering to community projects every year. If we had to pick one thing about our school that makes us extremely proud it is our students’ involvement in building a more aware and stronger community. JALC works with K-12 STEM/STEAM programs, Girl Scouts, Boy Scouts, bootcamps, athletes, and parents by utilizing demonstrations and projects. CAE has helped our rural school in Southern Illinois to get on the map. We have gathered resources, made allies, and improved our program through this effort and we proudly share our findings with other schools about our program. JALC is proud to be a member and we hope to continue these progressive steps in building a more secure future with our community and family.
