

Pharmacy Technician Training Program

John A. Logan College -- Center for Business and Industry now offers a training program for those who wish to learn skills for an entry-level healthcare profession. The John A. Logan College **Pharmacy Technician** program prepares students to enter the pharmacy field in hospitals, home infusion pharmacies, or community pharmacies as an ancillary. Pharmacy technician's work under the supervision of a registered pharmacist.

Course content will include medical terminology specific to the pharmacy, reading and interpreting prescriptions, and defining drugs by generic and brand names. Students will learn dosage calculations, I.V. flow rates, drug compounding and dose conversions. Dispensing prescriptions, inventory control, billing and reimbursement will also be discussed.

Completion requirements: Upon successful completion of the program students will receive a John A. Logan College Certificate of Completion and will be eligible to take the National Pharmacy Technician Exam. To receive the Certificate students must have a good attendance record, complete all assignments, and successfully pass quizzes and exams. Although this is a CONTINUING EDUCATION CREDIT program, letter grades will be assigned.

Admission requirements: Students must possess a high school diploma or GED.

Length of program: 12 weeks. Includes 60 Total Hours.

When: January 18 through April 7, 2022
Tuesday's and Thursday's

Classroom times: 6:30-9:00 p.m.

Classroom location: John A. Logan College Workforce Development Building, Room H125.
