

Subject line: Thank you for the interview

Dear Dr. Hamilton,

Thank you for taking the time to speak with me about the Surgical Tech position this morning. It was inspiring to have such an insightful conversation about changes in the surgical tech protocols, and it was a pleasure to learn more about your insight into the health care industry.

The details you shared about the position and future goals for the surgical team convinced me that the role would be an ideal match for my qualifications. I believe that my Associate in Applied Science in Surgical Technology from John A. Logan College and my previous work experience as a medical assistant would allow me to make a valuable contribution to the department.

I look forward to the next step in the hiring process. Please do not hesitate to contact me if you need additional information.

Thank you,

Hannah Lee
