Listed below are the end of program student learning outcomes for the John A. Logan College Associate Degree Nursing Program.

Student Learning Outcomes for the Associate Degree Program are:

1. Integrate evidence-based practice through the implementation of the nursing process.
2. Facilitate quality and safety of an individual's care including information technology.
3. Apply nursing knowledge to impact quality improvement.
4. Demonstrate leadership qualities and professionalism.
5. Collaborate effectively with the interdisciplinary team to promote optimal health.
6. Demonstrate a caring presence to effectively relate and advocate for diverse populations.
7. Utilize professional communication.

To maintain John A. Logan College's adherence to academic excellence, JALC nursing continues to review the following metrics.

End of Program Outcomes are:

1. Licensure exam – National Council Licensure Examination (NCLEX) pass rates
2. Program completion rates
3. Job placement rates
