Dual Credit and Early College

Are you a high school student excited to begin your college career? The Dual Credit and Early College programs allow you to earn college credit while you are still in high school, often with tuition waivers or discounts. Students who participate in early college programs also gain:

- An easier transition from high school to college
- A greater likelihood of completing their college degrees
- Cost-savings for students and families
- Real experience in the expectations of college-level work
- Enhanced skills required in college success such as time management, critical thinking, and study skills
- Career exploration
- Opportunities to participate in campus activities

Confidence

Starting at a community college helps students build confidence by offering smaller class sizes and more personalized attention from faculty and staff, making it easier to ask questions and get support.

Savings

Attending a community college offers a supportive community and affordable option for earning a degree or certificate. Our lower tuition rates and flexible course offerings reduce financial pressure, helping students feel more at ease as they work toward their goals.

Support

John A. Logan College helps students succeed with career services, tutoring, and transfer opportunities. You'll be supported every step of the way as you transition from high school to college.

Financial Aid and Scholarships

Every Year the FAFSA Opens October 1st

Be sure to complete the FAFSA each year!

At John A. Logan College, we pride ourselves on having one of the lowest tuition rates in the state while providing a high quality education ([visit our Tuition and Fees page for more information](#)). In addition, our students are often eligible for financial assistance including financial aid and/or scholarships. Tuition payment plans are also available. At John A. Logan College, we are here to help you every step of the way.

One Mission: Student Success

Free Tutoring and Computer Lab Use

The Student Success Center is here to support students on their academic journey with four key programs: Campus Tutoring, TRIO Student Support Services, Personal Counseling, and Disability Support Services. Each one offers valuable resources to help students thrive and reach their educational goals.

Academic Advising

JALC's academic advisors are here to guide you toward success, helping with course selection, enrollment, major changes, graduation plans, and transfers to a four-year school. Whether you have questions or need support, your advisor is ready to help.

Library Access

The John A. Logan College Library is your go-to for books, eBooks, databases, and more! Find a quiet study spot, borrow a laptop for the semester, or use the computer labs—all here to support your success.

Free Printing

John A. Logan students can print for free, from any computer, tablet, or smart phone. Upload files 24/7 to the PrintRequest website. Pick up print jobs in Room C115, Monday-Friday. Students can also print for free to the library copier, from any library computer.

Placement Testing

Testing Services at John A. Logan College provides essential exams for placement, program entry, certification, and licensure. While some tests are part of the enrollment process, they're only for math and English placement—they won't prevent you from starting your college journey.

Free Career Services

The Career Development program helps students explore and achieve their career goals through assessments, personal guidance, and hands-on experience.

35
STUDENT CLUBS AND
ORGANIZATIONS

Find your tribe and succeed alongside friends who inspire you!

Top 5 Reasons to Join a Club

1. Participate in activities that reinforce and enhance academic learning.
2. Develop a variety of professional and personal skills including leadership, communication, teamwork, and project management.
3. Socialize with fellow students and other individuals from diverse backgrounds.
4. Contribute to service projects that benefit the campus and surrounding communities.
5. Improve job and scholarship opportunities by applying skills and knowledge, showing evidence of involvement, and interacting with faculty, staff, and administrators.
