### product for the Nursing Program

#### 8.A – Assessment Technology Institute (ATI) product for the Nursing Program

#### 1. REASON FOR CONSIDERATION

ATI provides JALC's nursing program with comparative, statistical data from other nursing schools throughout the nation compared to our nursing program to identify trends for curriculum guidance. The statistical information also provides valuable data for the ADN Program's Accreditation Commission for Education in Nursing (ACEN) systematic evaluation plan to continue meeting our accrediting body's standards.

These services were included in the FY26 budget at a total cost of \$112,945.00. Student fees are assessed to cover the cost of the product.

LPN Full-Time paid in two installments of \$37,755.00 (August 2025 & January 2026) LPN Part-Time paid in one installment of \$16,780.00 (January 2026) ADN Full-Time paid in two installments of \$4,860.00 (August 2025 & January 2026) ADN Part-Time paid in two installments of \$4,860.00 (August 2025 & January 2026) ADN Hybrid \$1,215.00 (May 2026)

#### 2. BACKGROUND INFORMATION

ATI is a web-based, state-of-the-art product that offers curriculum guidance and enhancement throughout the rigorous nursing curriculum. The ATI product is aligned with the National Council State Board of Nursing (NCSBN) NCLEX-PN and NCLEX-RN content areas. All nursing faculty use the ATI product as a course assignment, remediation technique, and evaluative measure. Using ATI also prepares students for state board testing throughout the program, rather than at the end of the program.

#### 3. RECOMMENDATION

These services were included in the FY26 budget at a total cost of \$112,945.00. Student fees are assessed to cover the cost of the product.

That the Board of Trustees approve the testing product provided through the Assessment Technology Institute, LLC, in the amount of \$112,945.00.

RE:

Sole Source Purchase Justification

Please accept this request to purchase Nursing Assessments and Testing Products from ATI Ascend Learning for \$112,945.00 being funded by college funds that have been approved in the budget.

ATI provides JALC's nursing program with comparative, statistical data from other nursing schools throughout the nation compared to our nursing program to identify trends for curriculum guidance. The statistical information also provides valuable data for the ADN Program's Accreditation Commission for Education in Nursing (ACEN) systematic evaluation plan to continue meeting our accrediting body's standards.

The ATI product is aligned with the National Council State Board of Nursing (NCSBN) NCLEX-PN and NCLEX-RN content areas. All nursing faculty use the ATI product as a course assignment, remediation technique, and evaluative measure. Using ATI also prepares the students for state board testing throughout the program instead of at the end of the program. ATI is the industry standard for the National Council State Board of Nursing (NCSBN) and has a direct effect on John A. Logan College's nursing pass rate.

Students are assessed a fee to cover the cost of this product.

#### 8.B - Revised Academic 2025-2026 & 2026-2027 Calendars

#### 1. REASON FOR CONSIDERATION

Revised 2025-2026 and 2026-2027 Academic Calendars

#### 2. BACKGROUND INFORMATION

The current 2025-2026 and 2026-2027 Academic Calendars require revision to reflect the move of spring commencement ceremonies to Saturday mornings. The move to Saturday mornings was based on positive feedback provided to the commencement taskforce following the spring 2025 commencement ceremony, which was held on Saturday in response to the weather threat on the originally scheduled date.

#### 3. **RECOMMENDATION**

Approve the revised 2025-2026 and 2026-2027 Academic Calendars.

### **Artic Wolf**

#### 8.D – Arctic Wolf

#### 1. REASON FOR CONSIDERATION

The Information Technology department at John A. Logan College has various systems and processes in its Cyber Security portfolio. In a recent Cyber Tabletop Exercise, some gaps were identified that need to be resolved. The Arctic Wolf solution being proposed will deliver services that will address those gaps.

These additions consist of 24/7 surveillance from a Security Operation Center Triage Team, Managed Detect and Response (MDR), as well as log aggregation and collection from Arctic Wolf and our other network systems. The Incident Response Jumpstart feature guarantees a 1-Hour Service Level Agreement in case of a cyber event, helping us deal with threats promptly. According to the Illinois Public Community College Act, 110 ILCS 805/3-27, and Board Policy 7154, Purchasing, data processing, and telecommunication equipment are exempt from bidding.

#### 3. RECOMMENDATION

# Consent Agenda Item 8.F Contract with Moneta Enterprises, LLC

#### 8.F - Contract with Moneta Enterprises, LLC

#### 1. REASON FOR CONSIDERATION

The contract with Moneta Enterprises LLC did not result in an operational program. The intended Initiative was to provide pass-through online training for Court Supervision Testing. No training was conducted under this contract during or after its execution. During the initial three (3) years of the agreement, no tests were administered, and consequently, no participants completed or passed the program.

#### 2. BACKGROUND INFORMATION

An agreement between John A. Logan College and Moneta Enterprises LLC was approved by the Board of Trustees on February 20, 2020, to provide online testing services. Despite this approval, the program was never implemented, and no testing activity occurred.

#### 3. RECOMMENDATION

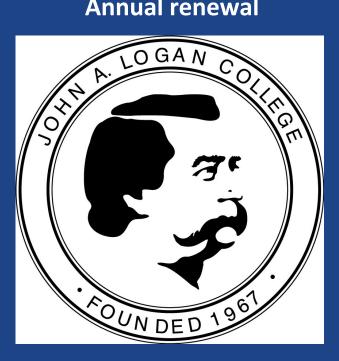

It is recommended that the Board of Trustees approve the dissolution of the contract with Moneta Enterprises LLC, originally entered into on May 26, 2020, with dissolution to take effect immediately upon Board action.

**Staff Contact**: Dr. Kirk Overstreet, President

### **Consent Agenda Item 8.G**

### **Insurance Package & Workers' Compensation**

### **Annual renewal**

#### 8.G – Insurance Package and Workers' Compensation Annual Renewal

#### 1. REASON FOR CONSIDERATION

Insurance coverages and actual premiums for the 2024 - 2025 year were as shown on the attached rate sheet, with a total cost of \$541,153. Tedrick Group has received insurance premium quotes for the total insurance package for 2025-2026 at an 8.9% increase, totaling \$589,528. It is important to note that the College has experienced increases ranging from 10% to 12% annually for the past several years.

#### 2. BACKGROUND INFORMATION

As the College's Broker of Record, the Tedrick Group provides services to negotiate the annual insurance package renewal. This includes workers' compensation, as well as covering the College's property values, auto, inland marine, a liability package, an umbrella policy, and coverage against risk exposures from cyber and crime. Premiums for these coverages are budgeted in the tort fund.

#### 3. RECOMMENDATION

That the Board of Trustees authorizes the administration to enter into renewal agreements for an insurance package with carriers recommended by The Tedrick Group for a total premium of \$589,528, with individual carriers as quoted.

The College shall maintain a National Incident Management System (NIMS)-compliant Emergency Response Plan in accordance with the Campus Security Enhancement Act of 2008.

#### **Definition of Emergency**

For the purposes of this policy, an "emergency" is defined as any incident—natural, mechanical, technological, or human-caused—that necessitates immediate and coordinated action to protect life, health, property, or the environment. This includes, but is not limited to, severe weather events, fires, hazardous material spills, violent incidents, or other threats that disrupt normal operations or pose significant risk to the campus community.

#### **Authority to Declare an Emergency**

The College President, or their designee, shall have the authority to declare and terminate a campus state of emergency. This decision shall be made in consultation with the designated incident commander and based on the nature, scope, and severity of the incident. The President may also convene an emergency meeting of the Board of Trustees if the situation warrants policy-level decisions or extended suspension of board policies.

#### **Emergency Response and Suspension of Policies**

Upon declaration of a campus state of emergency, the Campus Police Department will initiate necessary procedures to safeguard persons and property and maintain educational facilities. During the first 24 hours of the incident, Board Policy 7154 – Purchasing is suspended to allow for rapid response and resource deployment. The President may extend this suspension beyond 24 hours with notification to the Board Chair and, if feasible, the full Board.

Only authorized personnel will be permitted on campus during a declared emergency. The Emergency Response Plan and designated emergency personnel must be reviewed and approved by the Business Services Advisory Committee.

#### **Previous Language:**

The College shall maintain a National Incident Management System (NIMS) compliant Emergency Response Plan in accordance with the Campus Security Enhancement Act of 2008. The College President or their designee has the authority to declare and end a campus state of emergency. In the event of an emergency, the Campus Police Department will initiate necessary procedures to safeguard persons and property and maintain educational facilities. An incident commander, as identified in the Emergency Response Plan, will lead the response actions and consult with the President regarding the need for a campus state of emergency declaration.

During the first 24 hours of the incident, Board Policy 7154 -- Purchasing is suspended to allow for a quick response. Only authorized persons will be allowed on campus during a state of emergency. The Emergency Response Plan and the designated emergency personnel must be approved by the Business Services Advisory Committee.

The College shall maintain an Emergency Response Plan that is National Incident Management System (NIMS) compliant in accordance with the Campus Security Enhancement Act of 2008, as revised.

The authority to declare a campus state of emergency and declare an end to a state of emergency rests with the College President or his/her designee.

In the event of an emergency, as defined in the Emergency Response Plan, the Campus Police Department shall immediately place the appropriate procedures necessary to meet an emergency, safeguard persons and property, and maintain educational facilities. After the initial response, and depending upon the nature and magnitude of the event, an incident commander outside the Campus Police Department may lead the actions taken by the College. The incident commander, command staff, and general staff responding, as identified in the Emergency Response Plan, have delegated authority to act as necessary to stabilize the incident. The Incident Commander will consult with the President as soon as possible regarding the emergency and the possible need for a declaration of a campus state of emergency.

During the first twenty four (24) hours of the incident and after declaring a campus state of emergency, Board Policy 7154 — Purchasing is suspended to allow for a quick response and minimize injury, loss of life, and damage to property. Suspension of this policy applies only to those assigned responsibility in the College's Emergency Response Plan and for the execution of such.

During a state of emergency, only those persons authorized by the incident commander will be allowed on the campus. Those who cannot present proper identification and/or are not authorized to be present are subject to arrest.

The Emergency Response Plan, including the persons identified to fulfill various emergency responsibilities in the plan, shall be approved by the Business Services Advisory Committee.

Release time at John A. Logan College is designed to utilize faculty talent, energy, and insight to facilitate the College's mission and accomplish specific aims and objectives consistent with its established goals.

Release time may be granted for professional activities of College-wide or district-wide significance that draw upon the expertise of full-time teaching faculty. These activities are considered beyond the normal teaching responsibilities and other obligations of full-time faculty.

Release time will be restricted to six hours per semester, with the possibility of additional hours approved by the President for short-range activities. Faculty must reapply each year for release time, and all requests must justify the need and detail the planned activity.

The concept of release time is designed to utilize faculty talent, energy, and insight to facilitate the mission of the College and to accomplish specific aims and objectives consistent with the established mission and goals of John A. Logan College. Release time may be granted for professional activities of College wide or district wide significance that may be achieved in whole or in part by drawing upon the expertise of full time teaching faculty. Such activities are considered beyond the normal teaching responsibilities and other obligations of full time faculty that may be delineated elsewhere in College policy or the faculty contract. Other professional activities on a smaller scale may also be considered for the award of release time based on documented need and availability of human and material resources.

The following guidelines and procedures will apply to the concept of release time.

- 1. Release time will normally be restricted to six (6) hours per semester maximum, including any release time for grant activities. There is no restriction on release time when such release time is to be compensated under the grant or partnership with an external entity.
- 2. The President, at his discretion, may approve up to three (3) additional hours per semester for short-range activities, other than grant activities, of one year or less.
- -3. Release time will be approved in increments of no more than two (2) semesters in length.
- 4. Any faculty member interested in pursuing release time activities must reapply each year even though the activity or project is of a continuing nature.
- 5. The administration and/or Board of Trustees may request that faculty members accept release time to pursue specific, identified objectives.
- 6. Release time will not be available during the summer term except for individuals listed as a principal investigator for a grant and/or key grant personnel as defined by the College grant officer.
- -7. All requests (applications and/or proposals) for release time must clearly justify the need for the release time and describe in detail the nature of the planned activity.
- 8. The following procedures will be used in calculating release time:
- a. One hour of release time will be considered equivalent to 2.6 clock hours, and this is based on the assumption that a teacher will spend one hour in the classroom for a one credit hour class and 1.6 hours outside the classroom in preparation and maintaining office hours.

- b. Faculty requesting three hours of release time must use the following formula to arrive at the number of clock hours required to complete the proposed project or activity for each semester:
- 3 hours x 2.6 = 7.8 clock hours

  7.8 clock hours x 16 weeks = 124.8 clock hours
- c. As a result of the above calculation, faculty who are granted three hours of release time for one semester would be expected to prepare a proposal that would incorporate 125 clock hours of work on the approved project or activity.
- -9. Release time for all faculty must be documented as specified on the Request for Release Time form, and such release time must be reflected on the payroll records of the College.
- 10. When a release time activity is completed, written documentation must be provided by the faculty member to the Provost indicating that the project is completed. Accomplishments and/or results must be listed.
- 11. All requests for release time must be submitted on the Request for Release Time form and must be in the hands of the faculty member's immediate supervisor a minimum of six weeks in advance of the start of the release time project. This is necessary in order to provide expedient and competent coverage for a full-time faculty member's teaching load.

- 3. Fees
- 4. Understanding of the dynamics currently impacting the bond market
- 5. Estimated interest rates and yields as of August 1, 2025

Provided below is a summary of the fees for each firm.

Underwriter	Underwriting Fee (per \$1,000)	Total Underwriting Fee*
Stifel	\$2.933	\$20,531
Raymond James	\$3.500	\$24,500
Baird	\$3.500	\$24,500

As you can see, Stifel's fee proposal is the lowest at \$20,531. While it is important to understand each firm's fee, the more significant variable is an underwriter's ability to secure the lowest possible interest rate in the market. Based on Stifel's market assessment on August 1st, they would generate the lowest True Interest Cost (TIC) of all three firms at a rate of 3.615% (please note that the TIC will not be finalized until the bonds are sold). In addition, Stifel is a leader in the Illinois community college bond sector, and it has been the #1 underwriter of lead-managed, negotiated bond issues nationally for each of the past 11 years by number of transactions.

PMA recommends that the College select Stifel as underwriter for its Series 2025 Bonds.

Thank you.
