

# Let's Clean Up Route 13... Because First Impressions Matter

At John A. Logan College, our mission is *to enrich lives through learning and community engagement*. One simple way we can live that mission is by helping take care of the very road that leads people to our campus every day.

On **Saturday, April 11 from 9:30am – 12:00pm**, JALC employees are invited to join Student Senate, faculty, staff, and students for the **Clean SoIL Highway Cleanup** along Route 13, right next to campus. We will meet in **Parking Lot Blue 3 by the Bell Tower** and work together to clean a two-mile stretch leading into John A. Logan College.

Let's be honest... thousands of people drive past this stretch every week. This is literally our front yard. And right now, that front yard could use a little... character removal.

## Why Join?

- Support JALC's mission through community engagement
- Volunteer alongside students and colleagues
- Get some fresh air and light exercise
- Experience the satisfaction of filling a trash bag faster than expected

And yes, there is something oddly satisfying about picking up that one stubborn fast-food cup that has been judging us for months.

## Event Details

**Clean SoIL** Highway Cleanup

Saturday, April 11

9:30am – 12:00pm

Meet at Bell Tower – Parking Lot Blue 3

**Clean SoIL** will provide:

- Gloves
- Safety equipment
- Grabbers
- Bags
- Water and refreshments

**You just need to bring:**

- Long pants
- Closed toe shoes
- A willingness to out clean your coworkers

**Sign Up Here:** [Click Here](#)

Whether you come as a department, office, or individual, this is a great opportunity to serve together and make a visible difference for our campus and community.

Plus, if anyone asks what you did this weekend, you get to say: *"I cleaned up Route 13 and made Southern Illinois look better."*

That is hard to beat.

Hope to see you there,
